Best organic sugar juice supplements for broilers and layers

Sugar supplement benefits

Sugar supplements help to boost egg production hence generating high returns from egg sales. Additionally, they also act as a source of energy for day-old chicks thus facilitating faster recovery from stress after transportation. Furthermore, the sugar syrup improves the final weight gain in broiler birds, as well as boosting carbohydrates digestibility for better absorption of energy thus boosting weight gain. Additionally, they also improve feed palatability by adding a good aroma and sweetness thereby boosting feed intake. Lastly, sugar syrup reduces the dustiness of feeds hence reducing incidences of respiratory illnesses.
